Price: 500.00 \$

TABLE OF BLUESTONE & amp; STEEL

You are purchasing a custom made one of a kind table. The top is Blue stone quarried from the Mid-Hudson Valley area of New York. I personally selected the stone slab and had it cut to my specifications. It's a beautiful example of New York State's geology, rich in greys, browns, gold and blues in all shades. It measures 49" wide X 36" deep X 30" high. The stone's thickness is not less then 1 inch. I don't know it's weight but assure you it will take two strong people to move the top alone. The trestle base is 1 ½ " square steel tubing made to my specifications and has rusted beautifully it can be used anywhere indoors or out and certainly impervious to any normal usage. The table is PICK-UP ONLY - Leeds NY, NYS thruway 87 exit 21, half way between Kingston and Albany. DOES NOT INCLUDE GARGOYLE TABLE WILL NOT BE SHIPPED
